**Primary Routes of Exposure:**

Skin Contact  
Eye Contact  
Inhalation

**Potential Acute Health Effects:**

**Eye:** May cause mild to moderate irritation

**Skin:** Prolonged contact may cause skin irritation. Absorption through skin contact not considered a significant route of exposure.

---

**Eye contact:** Flush eyes immediately with large amounts of water for at least 15 minutes. Get medical attention.

**Skin contact:** Wash exposed area thoroughly with soap and water. Get medical attention if irritation develops.

**Ingestion:** If swallowed call a physician, poison control center, or hospital emergency room. Do not induce vomiting because of the danger of aspirating liquid into the lungs. If spontaneous vomiting occurs, monitor breathing for difficulty. Treat symptomatically and supportively. Get medical attention.

**Inhalation:** If symptoms develop, remove affected person to fresh air. If breathing is difficult, administer oxygen if available. If respiratory symptoms persist, get medical attention.

---

## Section 5 Fire Fighting Measures

---

**Flash Point (method):** N/A (material will not flash)

**Extinguishing Media:** Foam, Dry Chemical, Water Fog, CO2

**Protection of Firefighters:** As in any fire, wear self-contained breathing apparatus in pressure demand mode and full protective gear.

**Fire and Explosion Hazards:** None known.

---

## Section 6 Accidental Release Measures

---

**Clean Up Methods:** Wipe, scrape or soak up in an inert material (sand, earth, etc.) and put in a container for disposal. Wash area with water.

(See also Section 8 for information on Exposure Controls and Personal Protective Equipment)

---

## Section 7 Handling and Storage

---

**Handling:** Keep out of reach of children. Avoid prolonged or repeated skin contact. Wear protective equipment. Use with ventilation.

**Storage:** Store above 40°F. Keep from freezing. Store at room temperature to prolong shelf life.

---

## Section 8 Exposure Controls / Personal Protection

---

**Engineering Controls:** Use in well-ventilated areas. If necessary, use mechanical local exhaust ventilation or general room dilution ventilation to reduce vapor concentrations below applicable exposure limits.

**Personal Protective Equipment (PPE):**

**Eye Protection:** Prevent eye contact. Wear chemical splash goggles or similar eye protection if the potential exists for eye contact.

---

N/A: Not Applicable    N/D: Not Determined    N/E: Not Established    N/R: Not Required    Est.: Estimated

---

**Skin Protection:** Avoid unnecessary skin contact. It is recommended that rubber gloves be worn to prevent skin contact. Depending on conditions of use additional protective equipment may be necessary such as face-shield, apron or coveralls.

**Respiratory Protection:** None required for normally expected use conditions. If exposure limits are exceeded or if irritation is experienced, appropriate NIOSH approved respiratory protection should be worn.

**General Hygiene Practices:** Wash after handling material. Prevent Eye contact. Avoid prolonged skin and inhalation contact. Wash thoroughly before handling food, cosmetics, or before smoking.
