TECHNICAL DATA BULLETIN

Roll-A-Tex Sand Texture Additive

(Formerly Bondex)

Item # 57068, 22616

Bondex Sand finish additive works in all paints and varnishes – interior or exterior. An extremely fine volcanic mineral compound, it stays suspended during application. Used to produce a non-skid surface around pools, decks, steps and ramps, or for achieving a sand-texture effect on walls and ceilings.

DIRECTIONS:

SURFACE PREPARATION:

Follow the paint manufacturer's directions for surface preparation and paint application. Use either a brush or roller.

MIXING:

While mixing we suggest you wear a NIOSH approved dust mask. Add the 2 lb. Package to 5 gallons of paint/varnish, the 8 oz. package to 1 gallon of paint/varnish. If heavier sand finish is desired; more additive may be used. Mix thoroughly using a slotted paint paddle or mechanical agitator. When using with deep or dark colors, mix additive to paint 2-3 hours prior to application.

APPLICATON:

Apply paint varnish as usual, with brush or roller. After applying, use a sponge, whisk broom, or other tool on wet paint if different textural effects are desired.

CLEAN UP:

Refer to clean up instructions on paint/varnish label.

CAUTIONS:

Do not take internally. Keep out of reach of children. If ingested, consult a physician immediately.

Keep out of reach of children

PROPERTIES:

Color: 22616 is Off-White

Case Weight:

Item#	*Size*	*Pack*
57068	8 oz.	6
22616	2 lb.	6

Coverage:	
Consistency:	
Drying time:	Depends on the paint being used.
Tinting:	N/A
Storage:	Store in a cool dry place.
Toxicity:	N/A
Flammability:	N/A
Hazardous Ingredients:	N/A

Keep out of reach of children
