

Spackling & Patching *Solutions* Interior & Exterior Use

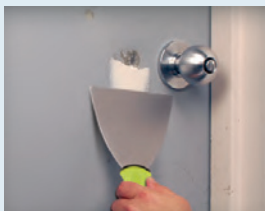

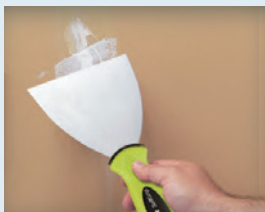

Ready Patch

A full-bodied heavy-duty spackling compound ideal for large cracks and holes. Smooth, easy to apply and easy to sand, Ready Patch combines the workability of spackling paste with the strength of plaster. The contractor's choice for over 40 years, it provides a durable finish with professional looking results.

- Recommended for interior & exterior surfaces
- Ideal for large cracks and holes
- Sticks to metal - great for dents in doors and metal siding
- Non-shrink formula resists cracking and sagging
- Dries fast, cures rock hard - outperforms vinyl spackling and actually strengthens the surface
- Can be primed when dry to the touch
- Soap and water cleanup

Available in half pint, half quart, quart and gallon

Tip...

Spot-prime patched areas, then prime the entire surface.

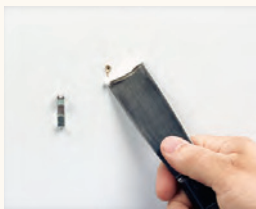

Ready Patch Lite

For easy, instant patching this professional-grade spackling compound is perfect for quick indoor patches and light-duty exterior ones. Fast-drying, light-weight Ready Patch Lite is easy to apply and even easier to sand smooth.

- Recommended for interior & exterior surfaces
- Use wherever easy, super-fast patching is needed
- Smooth consistency - won't fall off spackling knife
- Fast drying, resists shrinking, sagging and cracking
- Very easy to sand when dry
- Can be primed when dry to the touch
- Soap and water cleanup
- Asbestos and silica free

Available in half pint, half quart, quart and gallon

*Inside or Outside...
use Zinsser first!*

BASIC Repair Process

- 1 INSPECT THE SURFACE** to assess the repair to be made.
- 2 CHOOSE** either Ready Patch or Ready Patch Lite based on the extent of the damage. Remember, Ready Patch is full bodied and heavy duty, while Ready Patch Lite is ideal for most quick repairs.
- 3 COVER THE DAMAGE** with compound and smooth with a wide-blade drywall knife. Let dry.
- 4 SAND LIGHTLY** with a fine sandpaper. Clean with a damp sponge to eliminate dust caused by sanding.
- 5 PRIME** repaired surface.

Tip...

USE ZINSSER SOFTGRIP® 4-IN-1 WALLPAPER TRIM TOOL

Multipurpose tool functions as a trim guide, burnishing tool, wall scraper and spackling applicator all in one!
