**Rust-Oleum® Rust Stripper® eliminates rust from metal surfaces and helps restore them to an original finish. Rust Stripper contains a powerful acid based formula that safely strips metal clean.**

**Preparation:** Wear gloves throughout the process. Have towel, drop cloth and soapy water handy for spills and quick clean-up. Remove flaking paint and rust with sandpaper. **WARNING!** If you scrape, sand or remove old paint, you may release lead dust. **LEAD IS TOXIC.** Contact the National Lead Information Hotline at 1-800-424-LEAD or log on to [www.epa.gov/lead](http://www.epa.gov/lead).

**Application:** Shake well. Apply Rust Stripper to rusted surfaces directly from the bottle or pour needed amount into a non-metal bowl, then apply using a brush. Wait about 10 minutes, rinse with water, loosen rust from the surface with a mesh scrubber, and dry with a clean towel. Repeat as necessary. Do not use Rust Stripper on aluminum, chrome or galvanized metal.

**Finish:** For best results, prime and paint within 24 hours of using Rust Stripper. For an unpainted finish, oil the surface immediately using a light coat of rust preventive oil.

**Clean up:** Clean scrubber, brush, bowl and any spills with warm, soapy water. Dilute Rust Stripper with plenty of water before disposing.

**SATISFACTION GUARANTEED:** If you are dissatisfied with this product, contact our Customer Service Department at 1-866-585-8430 for a full refund of the purchase price. Refer to product number and batch code on bottom of can.

**KEEP OUT OF REACH OF CHILDREN.**

**Caution:** Avoid skin and eye contact. If it gets in eyes, flush with water for 15 minutes. Get prompt medical attention. For skin contact, wash off immediately. Do not take internally. Close container after use.
