RUST-OLEUM®

MARINE COATINGS

ANTI-SLIP ADDITIVE

Add to 1 quart of
TOPSIDE PAINT
for a slip-resistant finish

4 OZ. (1/2 PINT) 113.5g

WARNING!
MAY CAUSE EYE AND UPPER
RESPIRATORY TRACT IRRITATION
(See Other Cautions On Back Panel)

Rust-Oleum Marine Coatings Anti-Slip Additive easily mixes with latex or oil-based paints and provides a skid-resistant coating for wood, metal, fiberglass and concrete. Better than sand, Anti-Slip Additive is made of a unique pumice material. It mixes evenly, not settling to the bottom, and provides a uniform coat and a safer slip-resistant surface. Use on any interior or exterior surface where slips and falls are likely to occur. Ideal for floors, decks, stairs, ramps, washrooms, ladders, patios, boat jettys, walkways and more. Anti-Slip Additive will not change the color, performance or properties of the paint.

Mixing: Add one container of Anti-Slip Additive (1/4 pound) per quart of coating. Stir additive thoroughly into paint until an even consistency is achieved. Stir often during use to avoid settling. Follow application directions on Topside Paint can. Application of a coating containing the Anti-Slip Additive by airless spray is not recommended.

Contains: Crystalline Silica that can cause cancer. Risk of cancer depends on duration and level of exposure from dust produced by sanding the coating surface. Quantity of respirable crystalline silica in bulk form is less than 0.1% and overexposure is not expected during application. **Use only with adequate ventilation.** Do not breathe dust. Ensure fresh air entry during application or drying. If you experience eye watering, headache or dizziness or if air monitoring demonstrates vapor/mist levels are above applicable limits, wear an appropriate, properly fitted respirator (NIOSH/MSHA approved) during and after application. Follow

respirator manufacturer's directions for respirator use. Close container after each use. Avoid contact with eyes, skin and clothing. Wash thoroughly after handling. **First Aid:** If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. **WARNING:** This product is known to the state of California to cause cancer.

We stand behind our products. If you are dissatisfied with this product, contact Rust-Oleum Technical Services at 1-800-395-7878 for a refund of the product purchase price. Please note that the performance of any marine coating depends on many factors outside the control of Rust-Oleum, including surface preparation, proper application and environmental conditions.
