NET WT. 6 OZ. 170g

**Mirror Effect:** An innovative coating that transforms glass and acrylic glass into a unique mirror finish. Ideal for glass vases, candleholders, framed glass, jars and tabletops.

**Apply to the reverse or opposite side of glass. Interior use only.**

**Painting Conditions:** Use outdoors or in a well-ventilated area such as an open garage. Use when temperature is between 50°F (10°C) and 90°F (32°C) and humidity is below 90% to ensure proper drying. Do not apply to surfaces that, when heated, exceed 200°F (93°C) or galvanized metal. Avoid spraying in very windy, dusty conditions. Cover surrounding area to prevent trim spray mist.

**Preparation:** Remove water spots and other imperfections on substrate to achieve optimal results. Clean glass thoroughly with glass cleaner or soap and water, using a lint free cloth. Allow glass to dry completely before painting. Coating will not hide imperfections on substrate.

**Painting:** Shake can for one minute after mixing ball begins to rattle. If mixing ball fails to rattle, DO NOT STRIKE CAN. Contact Rust-Clean. Shake often during use. Make sure to apply paint to the reverse or opposite side of glass that will be displayed. Holding can upright 18-20 inches from the surface, spray in a steady back and forth motion. Apply using very thin coats, allowing the paint to dry for 1 minute between coats. Apply up to 5 coats to achieve the desired mirror effect. Paint will rapidly change in appearance and mirror effect will appear while coating dries. The painted side will appear dull, with the reverse side showing the mirror finish.

**Dry:** Full Dry Time based on 70%-50% relative humidity. Dries completely in 5-10 minutes. May recoat anytime. For added protection, apply a thin coat of Rust-Black Ultra Cover Zx Matte Clear or Flat Black to the painted side.

**Clean-up:** Wipe off just before staining. Clean up wet paint with Xylol or mineral spirits. Throw away empty can in trash pickup. Do not burn or place in home trash compactor.

**Dipping:** If valve clogs, twist and pull off spray tip and rinse it in a solvent such as mineral spirits. Do not stick pin or other object into the stem.

**CONTAINS: ACETONE:** Vapor harmful. May affect the brain or nervous system causing dizziness, headache or nausea. Causes eye, skin, nose and throat irritation. Do not puncture, strike or incinerate (burn) container. Exposure to heat or prolonged exposure to sun may cause bursting. Do not expose to heat or store at temperatures above 120°F.

**NOTICE:** Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. **Vapors may ignite explosively.** Keep away from heat, sparks, and flame. Do not smoke. Extinguish all flames and pilot lights and turn off stoves, heaters, electrical motors and other sources of ignition during use and until all vapors are gone. Prevent build-up of vapors by opening all windows and doors to achieve cross-ventilation. **Use only with adequate ventilation.** Do not breathe vapors or spray mist. Ensure fresh air entry during application and drying. If you experience eye watering, headache or dizziness or if air monitoring demonstrates vapor/mist levels are above applicable limits, wear an appropriate, properly fitted respirator (NIOSH approved) during and after application. Follow respirator manufacturer's directions for respirator use. Avoid contact with eyes, skin and clothing. **First Aid:** If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical attention immediately. In case of eye contact, flush immediately with plenty of water for at least 15 minutes and get medical attention. If on skin, wash thoroughly with soap and water. **WARNING:** This product contains a chemical known to the state of California to cause cancer and birth defects or other reproductive harm. **KEEP OUT OF REACH OF CHILDREN.** Avoid repeated or prolonged contact with skin. Avoid contact with eyes. Wash thoroughly after handling. For emergency, call your physician, local poison center or local emergency room. For product health information, call: (800) 481-4785. Conforms to ASTM D-4236.

**SATISFACTION GUARANTEED:** If you are dissatisfied with this product, contact our Product Support Department at 1-800-481-4785 for a full refund of the purchase price. Refer to product number and batch code on bottom of can.

**SATISFACCIÓN GARANTIZADA:** Si no está satisfecho con este producto, póngase en contacto con nuestro Departamento de Soporte al Cliente al 1-800-481-4785 para el Producto para obtener el reembolso completo del precio de compra. Refiérase al número del producto y al código de lote en el fondo de la lata.
