- Garages
- Play areas
- Laundry rooms
- Covered patio/porch

Rust-Oleum Specialty Glow in the Dark Paint allows you to make almost any surface glow in the dark! Can be applied to wood, metal, drywall, and many other surfaces.

IMPORTANT: USE OVER A WHITE OR LIGHT COLORED SURFACE.

DIRECTIONS: Create an instant glow on many surfaces in one easy step! Glows for up to 2 hours after a full charge. See paint label for complete instructions.

PREPARE SURFACES: Clean surface and let dry. If painting bare metal or bare wood, prime first using Painter's Touch or American Accents latex primer.

PAINT: Brush or roll on. Use a good quality synthetic brush or 1/4" - 3/8" nap roller. Apply 2 coats 45 minutes apart to achieve maximum glowing effect. Dries to the touch in 45 minutes. Latex formula offers easy soap and water clean-up.
