300-400 SQ. FT.
WITH ONE COAT

See cautions on back panel

RUST-OLEUM® CONCRETE & GARAGE FLOOR PAINT + PRIMER is a ready-to-use, epoxy-acrylic, interior/exterior concrete floor paint specially formulated for use on garages, carports, driveways, basements, porches, patios, walkways and pool decks. A single coat of this self-priming concrete floor paint saves time and money, and resists damage from hot tires, motor oil, grease and gasoline. The durable, UV & weather-resistant satin finish is easy to maintain and resists fading and peeling, and can be easily cleaned up with soap & water.

READ ALL INSTRUCTIONS CAREFULLY BEFORE STARTING PROJECT

WHERE TO USE: Use on interior or exterior concrete surfaces such as garage floors, carports, driveways, basements, porches, patios, walkways, pool decks and wooden steps. Allow newly poured concrete to cure for a minimum of 28 days prior to coating. Apply when air (ambient) temperature is 50-90°F (10-32°C) and relative humidity is below 85%. Not recommended for use on asphalt.

SURFACE PREPARATION: Bare Concrete Surfaces: Proper surface preparation is critical to performance. Before coating bare concrete surfaces, remove grease, oil, salt and other contaminants with RUST-OLEUM® HEAVY-DUTY DEGREASER (sold separately) or RUST-OLEUM® CLEANER & DEGREASER (sold separately). Scrub spots thoroughly with a stiff bristle brush or broom and wipe up excess cleaner with rags or paper towels to keep contaminants from spreading. Rinse thoroughly with fresh water. Repeat as necessary to completely clean. If necessary, use a wire brush or sander to remove any loose or unsound concrete or masonry. For proper penetration and maximum adhesion, use RUST-OLEUM® CONCRETE ETCH (sold separately) or RUST-OLEUM® CLEAN & ETCH (sold separately). Follow label instructions carefully and allow the floor to dry completely. Wipe your fingers over the clean, dry surface. If you see any dust or powder on your fingers, repeat rinsing and scrubbing until the floor is clean.

Previously Painted, Stained or Sealed Concrete Surfaces: Use a wire brush to remove any loose or peeling paint. To ensure proper adhesion, scuff sand the entire surface and clean with a solvent such as acetone. Rinse or sweep away dust and other particles. Wash the entire floor with RUST-OLEUM® HEAVY-DUTY DEGREASER (diluted as stated on the label) or RUST-OLEUM® CLEANER & DEGREASER and scrub the surface using a stiff bristle brush or broom. Spot etch all exposed concrete surfaces using RUST-OLEUM® CONCRETE ETCH or RUST-OLEUM® CLEAN & ETCH. Rinse thoroughly and allow to dry completely.

WARNING! If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN YOUNG CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

TINT LIMITS: Up to 8 oz of colorant per gallon.

APPLICATION: RUST-OLEUM® CONCRETE & GARAGE FLOOR PAINT + PRIMER is ready to use. Do not thin. Use only when air (ambient) temperature is 50-90°F (10-32°C) and relative humidity is below 85%. Do not paint outdoors if rain is expected within 48 hours. If using more than one gallon, intermix all cans of the same product to ensure color uniformity. Stir thoroughly before applying. Note: Painted floors may be slippery when wet. If desired, RUST-OLEUM® ANTI-SKID ADDITIVE (sold separately) may be added to the mixed coating.

Use a brush or roller to the perimeter and hard-to-reach areas. Use a long handled roller and a high-quality, 3/8" nap roller cover to apply an even coat of RUST-OLEUM® CONCRETE & GARAGE FLOOR PAINT + PRIMER onto the surface. Apply in 4x4 sections, and maintain a wet edge to prevent lap marks and gloss differences. Continue applying in 4x4 sections until complete. Only one coat is necessary. If a second coat is desired, wait 24 hours before applying the second coat in a direction perpendicular to the first. Occasional touch-up may be necessary for areas subject to heavy vehicle traffic. RUST-OLEUM® DECORATIVE COLOR CHIPS (sold separately) can be added for an upgraded appearance. Chips should be applied in 4x4 sections while the coating is wet.

DRY TIME: Surface should be ready for light foot traffic in 12-16 hours and normal foot traffic in 24 hours. FOR FULL CURE AND VEHICLE TRAFFIC, ALLOW 5 DAYS. Dry times increase at cooler temperatures.

CLEAN UP: Wash tools and equipment with warm water and a mild detergent. Properly dispose of all soiled rags and protect unused product from freezing.

COVERAGE: Each gallon contains enough surface treatment to cover approximately 300-400 sq. ft. of smooth, bare concrete. Very rough or porous surfaces will require more material.

RUST-OLEUM® PINTURA PARA PISOS DE CONCRETO Y GARAJES es una epoxi-acrílico pintura para pisos de concreto que viene lista para ser usada ya sea en el interior o el exterior y ha sido especialmente formulada para uso en garajes, cobertizos para automóviles, caminos de entrada, sótanos, pórticos, patios, pasadizos, y cubiertas de piscinas. Una sola capa de esta pintura para concreto que prepara la superficie por sí misma ahorra tiempo y dinero y resiste el daño producido por llantas calientes, aceite de motor, grasa y gasolina. Su duradero acabado satinado resiste la intemperie, y los Rayos Ultra Violeta es fácil de mantener y resiste la pérdida de su color y las peladuras. La fórmula puede ser fácilmente limpia con solamente jabón y agua.

LIMPIEZA: Lave todas las herramientas y equipo con agua caliente y un detergente suave. Deseche apropiadamente todos los trapos usados y proteja el producto que no se ha usado contra el congelamiento.

CUBIERTA: Cada galón contiene suficiente tratamiento para cubrir una superficie de 28-37 m² (300-400 pies²) de concreto liso y descubierto. Las superficies ásperas o porosas pueden requerir más material.

Caution. May cause eye, nose and throat irritation. Avoid contact with eyes and skin and avoid breathing vapors. Use only with adequate ventilation. Ensure fresh air entry during application and drying. Wash thoroughly after handling. Close container after each use. **FIRST AID:** If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. In case of eye contact, flush immediately with plenty of water for at least 15 minutes and get medical attention; for skin, wash thoroughly with soap and water. If swallowed, get medical attention immediately. For emergency, call your physician, local poison control center or local emergency room. For product health information, call: (800)481-4785.

WARNING! Cancer and Reproductive Harm – www.P65Warnings.ca.gov.
KEEP OUT OF REACH OF CHILDREN – DO NOT TAKE INTERNALLY.

PRECAUCIÓN. Podría provocar irritación en los ojos, la piel, la nariz y la garganta. Evite el contacto con los ojos, la piel y la ropa. No inhale vapores o el producto atomizado. Use únicamente con la ventilación adecuada. Asegure la entrada de aire fresco durante la aplicación y el secado. Lávese bien después de manipular el producto. Luego de cada uso, cierre el recipiente. **PRIMEROS AUXILIOS:** Si tiene dificultades para respirar, salga del área para obtener aire fresco. Si la dificultad continua, obtenga atención médica inmediatamente. En caso de contacto con los ojos, enjuáguelos inmediatamente con bastante agua por 15 minutos y luego obtenga atención médica; para la piel, lávela completamente con jabón y agua. En caso de ingestión (tragado) obtenga atención médica inmediatamente. En caso de emergencia, llame a su médico, al centro de toxicología local o a la sala de emergencias local. Para obtener información sanitaria del producto, llame al: (800) 481-4785.

ADVERTENCIA! Cáncer y daños reproductivos – www.P65Warnings.ca.gov.
MANTENGA FUERA DEL alcance de LOS NIÑOS – NO LO INGIERA.
