PRODUCT APPLICATION

DIRECTIONS

Mix all paints or stains thoroughly before using this product. Add contents (10 grams) to one gallon or (50 grams) to five gallons of paint, stain or wallpaper adhesive. Shake or mix thoroughly to incorporate the mildewcide. Then use the material as instructed by the manufacturer. Surfaces to be painted or papered should be cleaned thoroughly with an appropriate cleaner according to the manufacturer's instructions. For extremely damp areas prone to mildew, two pouches should be used. For New York housing authority specifications, 3-4 pouches may be needed depending on the protection needed.

NOTE: Do not use for any paint application involving direct or indirect food or drinking water contact.
