& PROTECTION

COVERS UP TO
150-400 SQ. FT.

CLEAR
GLOSS

See cautions on back panel

RUST-OLEUM® CONCRETE & GARAGE CLEAR GLOSS TOPCOAT provides a high-end, easy-to-clean gloss finish to concrete with interior/exterior durability. This product is designed for use over bare concrete or over 1-part epoxy floor paints such as RUST-OLEUM® Concrete & Garage Floor Paint + Primer. It adds a protective, gloss finish that resists damage from hot tires, motor oil, grease and gasoline. The durable, UV & weather resistant gloss finish is easy to maintain and resists fading and peeling.

READ ALL INSTRUCTIONS CAREFULLY BEFORE STARTING PROJECT

WHERE TO USE: Use on interior or exterior concrete surfaces such as garage floors, carparks, driveways, basements, porches, patios, walkways and pool decks. Allow newly poured concrete to cure for a minimum of 28 days prior to coating. Apply when air (ambient) temperature is 50-90°F (10-32°C) and relative humidity is below 85%. Do not paint outdoors if rain is expected within 48 hours. Not recommended for use on asphalt.

SURFACE PREPARATION: Whether over bare or freshly coated concrete, proper surface preparation is critical to performance. Before coating, if necessary, use a wire brush or sander to remove any loose or unsound concrete or masonry. Remove grease, oil, salt and other contaminants with RUST-OLEUM® HEAVY DUTY DEGREASER or RUST-OLEUM® CLEANER & DEGREASER (sold separately). Scrub spots thoroughly with a stiff bristle brush or broom and wipe up excess cleaner with rags or paper towels to keep contaminants from spreading. Rinse thoroughly with fresh water. Repeat as necessary until completely clean. For freshly painted surfaces, apply over 1-part epoxy water-base paints and stains such as RUST-OLEUM® Concrete & Garage Floor Paint + Primer as a protective clear topcoat without further surface preparation. Apply topcoat after 24 hours of base coat application and within 7 days.

Bare Concrete Surfaces: For proper penetration and maximum adhesion, use RUST-OLEUM® CONCRETE ETCH or RUST-OLEUM® CLEAN & ETCH (sold separately). Follow label instructions carefully and allow the floor to dry completely. Wipe your fingers over the clean, dry surface. If you see any dust or powder on your fingers, repeat rinsing and scrubbing until the floor is clean.

WARNING! If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN YOUNG CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

APPLICATION: RUST-OLEUM® CONCRETE & GARAGE CLEAR GLOSS TOPCOAT is ready to use. Do not thin. Stir thoroughly before applying. Note: Painted floors may be slippery when wet. If desired, mix in RUST-OLEUM® ANTI-SKID ADDITIVE (sold separately). Use a brush or edger to trim the perimeter and hard-to-reach areas. Use a long handled roller and a high-quality, 3/8" nap roller cover to apply an even coat of CONCRETE & GARAGE CLEAR GLOSS TOPCOAT onto the surface. Apply in 4'x4' sections, and maintain a wet edge to prevent lap marks and gloss differences. Continue applying in 4'x4' sections until complete. Only one coat is necessary. If a second coat is desired, wait 4 hours before applying the second coat in a direction perpendicular to the first. A second coat is recommended when applying over bare concrete. Occasional touch-up may be necessary for areas subject to heavy vehicle traffic.

DRY TIME: Surface should be ready for light foot traffic in 24 hours. FOR FULL CURE AND VEHICLE TRAFFIC, ALLOW 5 DAYS. Dry times increase at cooler temperatures.

CLEAN UP: Wash tools and equipment with warm water and a mild detergent. Properly dispose of all soiled rags and protect unused product from freezing.

COVERAGE: Each gallon contains enough surface treatment to cover approximately 150-250 square feet over bare concrete and 300-400 square feet over coated concrete. Additional product may be required depending on surface conditions.

PRECAUTIONS. Do not take internally. Use only with adequate ventilation. Do not breathe dust, vapors or spray mist. Ensure fresh air entry during application and drying. Close container after each use. Avoid contact with skin and eyes. Wash thoroughly after handling. **First Aid:** If you experience difficulty in breathing, leave area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. In case of contact, immediately flush skin with soap and water and eyes with plenty of water. If swallowed, get medical attention immediately. **KEEP OUT OF REACH OF CHILDREN.** For emergency, call your physician, local poison control center or local emergency room. For product health information, call: (800)481-4785.

⚠ WARNING: Cancer and Reproductive Harm – www.P65Warnings.ca.gov.

PRECAUCIÓN. No lo ingiera. Utilícelo solamente con ventilación adecuada. No respire el polvo, los vapores ni el rocío de la pulverización. Asegúrese de que haya una entrada de aire puro durante la aplicación y el secado. Cierre el envase después de cada uso. Evite el contacto con la piel y los ojos. Lávese bien después de manipular el producto. **Primeros auxilios:** Si tiene dificultad para respirar, abandone el área en busca de aire puro. Si la dificultad persiste, busque asistencia médica de inmediato. En caso de contacto, enjuague inmediatamente la piel con agua y jabón, y los ojos con abundante agua. En caso de ingestión, busque atención médica de inmediato. **MANTENGA FUERA DEL ALCANCE DE LOS NIÑOS.** Para emergencias, llame a su médico, al centro de toxicología local o a la sala de emergencias local. Para obtener información sanitaria del producto, llame al: (800)481-4785.
