SATISFACTION GUARANTEED: If you are dissatisfied with this product, contact Rust-Oleum Product Support at 1-800-837-8677 for a product replacement or a full refund of the purchase price. Refer to product number and batch code.

WORKS GREAT ON MANY SURFACES!

With TESTORS® COLOR SHIFT paint, projects take on multiple colors at once depending on the light or angle. Great for any craft or hobby project. For use on interior surfaces.

Preparation: Clean with soap and water, rinse and let dry.

Directions: For best results, apply over a black colored surface or a black basecoat to create a color shift effect. Shake well. Using a paint brush or sponge applicator, apply 1 or 2 light even coats, a few minutes apart. Try the Iridescent Shimmer over other colored basecoats for different effects. Dries to the touch in 30 minutes and to handle in 1.5 hours. Fully dry in 24 hours.

Painting Conditions: Can be used indoors. Use when temperature is between 50 °F and 90 °F and humidity is below 85% to ensure proper drying. Do not apply to surfaces that, when heated, exceed 200 °F. Caution: Protect from freezing.

WORKS GREAT ON MANY SURFACES!

When TESTORS® COLOR SHIFT BLACK is applied as a basecoat for the color shift colors, the final result shows projects taking on a color changing effect depending on the light or angle.

Preparation: Clean with soap and water, rinse and let dry.

Directions: Shake the bottle. Pour paint into a cup, stir, then apply 1 coat to the surface or object using a paint brush or sponge applicator.

Painting Conditions: Can be used indoors. Use when temperature is between 50 °F and 90 °F and humidity is below 85% to ensure proper drying. Do not apply to surfaces that, when heated, exceed 200 °F. Protect from freezing.
