VEHICLE & BOAT PRESSURE WASHER CONCENTRATE

Directions for Use:

IMPORTANT – READ ENTIRE LABEL BEFORE USE

- If not used properly pressure washer may cause damage (consult pressure washer manual before use).
- Never wash in direct sunlight. Do not allow chemical to dry on glass.
- From the garden hose, rinse any nearby plants.
- Apply to cool, wet surface.
- For chrome wheels, clean one at a time. Dilute product 1:10 on cool surface and let stand for 1-2 minutes. Rinse thoroughly. DO NOT ALLOW TO DRY.
- Always test on an inconspicuous area first.
- Overspray can be neutralized with large volumes of water.
- For heavy oil and grease stains (such as on driveways and garage floors), pour product directly onto the stain. Allow to penetrate for 10 minutes, then follow normal application procedures.
- In case of severe oil and grease stains on porous surfaces, oil may bleed to the surface or leave a residual stain. Repeat applications may lighten stains, but not remove stains completely.
- Do not mix this product with any other chemicals.

DIRECTIONS: PRESSURE WASHER APPLICATION

- Rinse surrounding plants with water, before and after application. Wet surface to be cleaned, prior to applying the product.
- Place detergent application siphon tube and screen filter directly into container. Open meter valve (if applicable) for maximum product flow.
- For reservoir machines, pour product (full strength) into pressure washer. Spray at low pressure onto a wet surface. On vertical surfaces, always spray from the top down. Allow product to remain on the surface for 3 to 5 minutes to penetrate. Do not allow product to dry on surface.
- Remove siphon tube from solution and rinse surface with high-pressure spray thoroughly.
- Flush siphon tube with clean water prior to storage.

NOTE: For use in a pump up sprayer, mix 12 oz. of concentrate with 1-gallon of water.
