PRODUCT APPLICATION

READ ALL DIRECTIONS CAREFULLY BEFORE STARTING PROJECT

DIRECTIONS

- Do not mix with any other chemicals.
- Do not use full strength on any surface.
- Do not allow product to dry on any surface.
- Always review manufacturer's manual before operating pressure washer. If used incorrectly, pressure washer may cause damage.
- Always test on an inconspicuous area first. Pressure washing alone may remove old paint and stains or highlight existing discoloration caused by the sun's UV rays.
- Any overspray can be neutralized with large amounts of water.
- Extremely soiled areas may require agitation with a brush or a second application.
- Mildew stains may not be completely removed from porous surfaces.
- In the case of severe oil & grease stains on porous surfaces, oil may bleed to the surface or leave a residual stain. Repeat applications may lighten, but not completely remove stains.

PRODUCT APPLICATION (cont.)

DIRECTIONS – MANUAL APPLICATION

Always test on an inconspicuous area first. Rinse surrounding vegetation with water before and after application.

1. Rinse surface with water.
2. Dilute concentrate 1:10 in a pump-up sprayer (approximately 12oz. of concentrate with 1 gallon of water).
3. Working in small sections, apply solution to surface with a soft bristle brush or pump-up sprayer.
4. Wait 3-5 minutes. Do not allow solution to dry on surface.
5. With hose at highest pressure, rinse surface with water.
6. Move to new section and repeat steps 1-5.

DIRECTIONS – PRESSURE WASHER APPLICATION

Always test on an inconspicuous area first. Rinse surrounding vegetation with water before and after application.

1. Rinse surface with water.
2. Place detergent application siphon tube and screen filter directly into solution. Open meter valve (if applicable) for maximum product flow. For reservoir machines, pour concentrate (full strength) directly into pressure washer.
3. Working in small sections, apply solution to surface using low pressure spray nozzle. For vertical surfaces, apply bottom to the top.
4. Wait 3-5 minutes. Do not allow solution to dry on surface.
5. Remove siphon tube from solution and rinse surface from top to bottom with high pressure.
6. Move to new section and repeat steps 1-5.
7. Before storage, rinse pressure washer parts thoroughly with water.

COVERAGE

1 gallon of concentrate makes 11 gallons of cleaner. Covers up to 3,200 sq. ft.

PREVENTION

Wash hands thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.

KRUD KUTTER® PRO
MULTI-PURPOSE PRESSURE WASHER CONCENTRATE

PHYSICAL PROPERTIES

	MULTI-PURPOSE PRESSURE WASHER CONCENTRATE
Composition	Proprietary blend of Detergents, Foaming Surfactants, and Dye
Color	Purple Liquid
pH	12.5-13.5
Volatile Organic Compounds	0% By Weight
Practical Coverage	Up to 3,200 square feet per gallon of diluted concentrate
Shelf Life	7 years
Flash Point	>200°F (93°C)
Caution!	EYE AND SKIN IRRITANT. This product contains alkaline detergents. Do not take internally. In case of contact with eyes or skin, flush with water for at least 15 minutes. If irritation persists, seek medical attention. If swallowed, take large amounts of water. Do not induce vomiting. Get medical attention. Do not induce vomiting. Get medical attention.
