SAFETY IS NO ACCIDENT

Rust-Oleum Safety & Facility Assessments

Safety Assessments

Facility Assessments

Rust-Oleum Safety and Facility Assessments

(Powered by InspectAll Software)

SAFETY ASSESSMENTS

Emphasizing on slips, trips and falls, the Rust-Oleum Safety Assessment will document areas of concern and opportunities for improvement in regards to:

- Working/walking surfaces
- Aisle ways
- Industrial stairways
- Emergency egress
- Safety color coding
and more

Receive a photographically documented full color report including OSHA regulations in regards to the areas of concern and product recommendation for the alleviation of these issues.

FACILITY ASSESSMENTS

Emphasizing on coatings, this assessment will help facilities to select the proper coatings for longevity and over all cost savings. The assessment can cover:

- Interior/exterior walls
- Equipment
- Floors
- Ceilings
- Roofs
- Tanks
and more

Receive a photographically documented full color report including recommendations for surface prep and coatings that will have increased service life over current selections.

Contact your Rust-Oleum representative for more information.
