

JOMAX

House Cleaner and Mildew Killer

KILLS Mold and Mildew

***Removes dirt & stains
without scrubbing***

EFFECTIVE • EASY • ECONOMICAL

The Perfect Solution for Dirt and Mildew

JOMAX will kill mold and mildew and remove dirt and stains without scrubbing

Effective

The unique JOMAX formula contains key ingredients **not** found in other cleaners:

- A powerful **EPA registered mildewcide** that kills mold and mildew.
- **ChloRelease™** – a unique **bleach activator** that removes tough stains at lower bleach concentrations, so it won't damage aluminum and painted surfaces or surrounding plants and shrubs.
- A specially formulated **detergent system** that loosens dirt and stains without scrubbing.

Easy

Mix JOMAX with bleach and water, spray on and rinse off with an ordinary garden hose. It's that simple! Dirt, mold & mildew rinse away without scrubbing – and there's no need for expensive power washing equipment.

Economical

One gallon of JOMAX makes 20 gallons of solution – enough to clean a two-story home.

JOMAX is great for:

- Aluminum & vinyl siding
- Painted wood siding, doors & trim
- Painted brick, concrete, cement block & stucco
- Stained or painted decks & fences
- Composite decks & fences
- Patio furniture
- Asphalt roof shingles

Before

JOMAX killed the mildew and removed the dirt and stains from the side of the house.

Just one gallon of JOMAX made enough solution to clean it's entire 4,000 sq. ft. exterior.

After

Dirt and mildew make the side of this house look ugly and old. Cleaning with bleach alone can damage the painted surface and kill surrounding plant life - while detergent solutions will not kill mold and mildew.

**CAN BE USED
NEAR PLANTS
AND SHRUBS**

HOW TO USE

1. Pour water into a tank-type garden sprayer, paint sprayer, or plastic pail.

2. Add small amount of household bleach (according to directions).

3. Shake JOMAX thoroughly.

4. Add JOMAX. Mix well and use within three hours.

JOMAX House Cleaner and Mildew Killer is the perfect solution for exterior dirt and mildew. The EPA registered-mildewcide kills mold & mildew – no scrubbing required! Plus, JOMAX is perfect for any outdoor cleaning project, especially for pre-paint or stain surface preparation.

The JOMAX family includes a full line of powerful cleaning solutions for interior & exterior surfaces
