

# FABRIC DWR

## DURABLE WATER REPELLANT

**NeverWet®**  
Liquid Repelling Treatment

Rust-Oleum® NeverWet® Fabric DWR is a one-step, superhydrophobic, durable water-repelling treatment that has been designed to keep items dry longer. This crystal clear formula allows fabrics to breathe, while dramatically repelling water from the surface. NeverWet Fabric DWR preserves items against damaging moisture without changing the look or feel of the fabric.

### FEATURES & BENEFITS

- ✓ Easy to use, one-step application
- ✓ Crystal clear formula will not change the appearance, texture or breathability of the fabric
- ✓ Protects textiles from water damage
- ✓ Use on polyester, cotton, blends, leather, suede, nylon, wool, denim, velvet, satin, rayon, silk, canvas, and more

*“After spraying our patio furniture with NeverWet Fabric DWR, rain doesn’t keep our guests indoors for long. NeverWet leaves the cushions dry and comfortable for our visitors.”*

- Thomas G.,  
Operations Manager - Hospitality

# FABRIC DWR DURABLE WATER REPELLANT
