NeverWet®
Boot & Shoe is a
one-step, superhydrophobic, water
repelling treatment designed to keep items
dry longer. This crystal clear formula allows fabrics
to breathe, while dramatically repelling water from the
surface. NeverWet Boot & Shoe preserves footwear against
damaging moisture without changing the look or feel.

Repels Water • Breathable • Invisible Protection

Great For: Work boots, tennis shoes, dress and casual shoes.

Ideal For: Leather, suede, nubuck, canvas and more

Coverage: Coverage will vary depending on fabric: 60 sq. ft. on smooth/light fabrics
to 20 sq. ft. on textured/heavy fabrics.

Spraying Conditions: Use outdoors in a well ventilated area. Use when temperature
is above 50° F (10° C) and humidity is below 85% to ensure proper drying. Avoid
spraying in windy, dusty conditions.

Prep: Apply to clean, dry articles.

Application: Do not shake. A test spray is recommended to obtain feel for spray
pattern. Test in an inconspicuous area before application for colorfastness.
NeverWet Boot & Shoe may enrich light materials with a slightly darker tone.
Odorless when dry.

Rotate nozzle to "ON" position. Spray coating 8-12" from the surface, coating the
entire boot or shoe until wet. Do not soak or allow to puddle.

Allow to dry for 24 hours before exposing to water. Re-apply seasonally or when
needed. **Note:** If bubbles appear, lightly dab with clean, lint-free rag.

Visit Rustoleum.com/NeverWet for more information.
