READ ALL DIRECTIONS BEFORE APPLYING PRODUCT

Handling/Storage: store in a well ventilated area away from sources of heat. Ideal temperature is between 70°F (21°C) and 90°F (32°C) and humidity below 80% to ensure proper drying. Do not store in direct sunlight, where direct water, or any temperature above 90°F (32°C). Avoid applying under very hot, dry conditions. Use a sanding block or sandpaper to remove any loose paint. Apply a thin coat of rust inhibitor to the surface. Apply up to 0.094" (2.4 mm) of rust inhibitor in one application. Apply rust inhibitor up to 0.437" (11.1 mm) in one application. Do not apply over rust, paint, or non-metal surfaces.

Precautions: Persons covering metal should wear a nose and mouth respirator designed for use with this material. Clean up spills with a dry cloth or sandpaper. If coming into contact with the eyes, flush with water for at least 15 minutes. If continued difficulty is experienced, get medical attention immediately. If swallowed, get medical attention immediately. If inhaled, get medical attention immediately. If inhaled, get medical attention immediately.

FIRST AID:

Inhalation: Remove to fresh air. If difficulty breathing, give artificial respiration, using procedure that is safe for the material. If breathing stops, use mouth-to-mouth resuscitation. If breathing does not return, get medical attention immediately.

Ingestion: If swallowed, call your physician or local poison control center for information. Provide the person with 1-2 glasses of water and get medical attention immediately. If the person is comatose or not breathing, get medical attention immediately.

Skin: Wash with soap and water. If irritation persists, get medical attention immediately.

Eyes: Wash with water for at least 15 minutes and get medical attention immediately. If irritation persists, get medical attention immediately.

COLD GALVANIZING COMPOUND
