ELASTOMERIC ROOF COATING

7 YEAR WARRANTY
7 AÑOS DE GARANTÍA

67% REFLECTIVITY

Energy efficient reflective coating
Revestimiento reflectivo de eficiencia energética

Rain resistant in 6 hours
Resistente a la lluvia en 6 horas

Mildew resistant
Resistente al moho

Use on metal roofs, concrete, modified bitumen, built-up, and weathered single ply roofing
Usar sobre techos de metal, hormigón, betún modificado, techos multimembrana y techos single-ply degradados

4.75 GALLON/17.98 LITERS

Rust-Oleum 7 Year Elastomeric Coating provides a high initial reflectivity value of 67%, energy efficiency, long term durability and excellent resistance to weathering and dirt pick-up. This elastomeric roof coating is formulated to meet and exceed the standards established in ASTM D 6083.

Rust-Oleum 7 Year Elastomeric Coating waterproofs and weatherproofs metal, weathered single ply membranes as well as smooth surface asphalt built-up and modified bitumen roof substrates.

DIRECTIONS

SURFACE PREPARATION: All surfaces must be clean and free from dirt, grease, oil, mildew, loose granules, loose paint, rust, excess chalk, and other foreign matter which could prevent proper adhesion. Use a high pressure wash of at least 2,000 psi. Clean with RUST-OLEUM ROOF & SIDING CLEANER to remove all grease or oily deposits. Seams should be sealed and waterproofed and roof penetrations should be flashed prior to applying the CLEANER to remove all grease or oily deposits. Seam must be made and waterproofed. If not, there is no present roof. Surface must be topcoat. Do not thin. Stir well and use within 6 months. Metal panel is not Kynar or previously coated, the surface must be clean and dry. Steel surfaces must be primed before application, cleaned at all rust as thoroughly as possible by wire brush, power tools, or power washed and primed with a rust inhibiting primer.

APPLICATION: Mix with a power assisted mechanical mixer before use. Mix until coating is smooth and consistent. 7 Year Elastomeric Coating can be spray, roll, or brush applied. A 3/8" nap roller is recommended if rolling. For optimum results, airless spray is recommended. Tip Sizes: Good results are generally obtained at 2000-4000 psi air spray tip.

SPRAY EQUIPMENT RECOMMENDATION: Pumps: Graco King 45-1, Graco Bulldog 30-1 or gas powered equivalents, Graco GH373, Hydromax 330 or GHMax 9390 or other manufacturers' equivalents. Hose/Pressure: 50' - 3000' length (depending on spray rig pressure). When using hoses longer than 100 feet, use the next larger hose size by 50'. Every 50' of hose will reduce the spray pressure of the rig by 10% at the gun tip. i.e. 300' hose = 4.4 (50'/100') to 1/8" (50'/750') to 1/2" (50'/750') to 3/8" (50'/750'). Graco Contractor Gun, Graco WeatherMaster Single Ply. After detailing and priming with a single ply primer, apply a 50' - 100' length of the same pipeline. Graco 14-16" Graco Contractor Gun, Graco WeatherMaster Single Ply. After detailing and priming with a water-base asphalt primer, apply 2 coats of the same pipeline. Graco 14-16" Graco Contractor Gun, Graco WeatherMaster Single Ply. After detailing and priming with a water-base asphalt primer, apply 2 coats of the same pipeline.

COVERAGE: After detailing, priming, covering 100 square feet of the roof. Coverage of the 7 Year Elastomeric Coating is 1.5 gal./750 sq. ft. for the 1st coat and 1.5 gal./750 sq. ft. for the 2nd Coat. 24 wet mils per coat. Over corrugated and irregular surfaced metal, allow for additional surface area by multiplying length x width. Coverage of the WeatherMaster Single Ply. After detailing and priming with a single ply primer, apply a 50' - 100' length of the same pipeline. Graco 14-16" Graco Contractor Gun, Graco WeatherMaster Single Ply. After detailing and priming with a water-base asphalt primer, apply 2 coats of the same pipeline. Graco 14-16" Graco Contractor Gun, Graco WeatherMaster Single Ply. After detailing and priming with a water-base asphalt primer, apply 2 coats of the same pipeline.

LIMITATIONS: Application temperature shall be above 50°F. Protect from freezing. Not intended for use in areas subject to vehicular traffic, pooling water, and over talc or silicone. Do not apply when rain is imminent. SATISFACTION GUARANTEED**: If you are dissatisfied with this product contact Rust-Oleum product support at 1-844-888-0482 or request product replacement or a refund. Provide proof of purchase and refer to the product number and batch code on the can. WARNING: Avoid eye and skin contact. FIRST AID MEASURES: IF EXPOSED OR CONCEALED: GET MEDICAL ATTENTION. IF IN EYES: Rinse eyes cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF ON SKIN: Wash with plenty of soap and plenty of soap. Rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. IF SWALLOWED: Rinse mouth. Do not and water. IF NAUSEA: Induce vomiting. Never give anything by mouth to an unconscious person. WARNING: Keep container closed when not in use. STORAGE AND DISPOSAL: Keep container tightly closed. Store in a well-ventilated place. Dispose of contents in accordance with local regulations. KEEP OUT OF REACH OF CHILDREN.

VOC <10 g/L. Rust-Oleum guarantees its complete satisfaction with this product supplied to appear in properly prepared surfaces in accordance with label instructions.
