

**AMERICAN ACCENTS  
TERRA COTTA SPRAY**

**DESCRIPTION AND USES**

Rust-Oleum® American Accents® Terra Cotta Spray is a fine textured paint that provides a distinctive, durable coating for interior and exterior decorating of wood, plaster, metal, clay, and previously coated surfaces. Not for use on galvanized metal.

**PRODUCTS**

SKU (12 ounces)	Description
7905830	Clay Pot

**PRODUCT APPLICATION**

**PAINTING CONDITIONS**

Use outdoors or in a well ventilated area such as an open garage. Use when temperature is between 50-90°F (10-32°C) and humidity is below 65% to ensure proper drying. Do not apply to surfaces, when heated, exceed 200°F (93°C). Do not apply to galvanized steel. Avoid spraying in very windy and dusty conditions. Cover surrounding area to protect from spray mist.

**SURFACE PREPARATION**

Remove all dirt, grease, oil, salt and chemical contaminants by washing the surface with a commercial detergent, or other suitable cleaning method. Rinse with fresh water and allow to thoroughly dry. Remove loose paint and rust with a wire brush or sandpaper. Lightly sand glossy surfaces to create a surface profile.

**WARNING!** If you scrape, sand or remove old paint from any surface, you may release lead paint dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE; ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to [www.epa.gov/lead](http://www.epa.gov/lead).

**PRODUCT APPLICATION**

**PRIMING**

Use of Rust-Oleum American Accents 7980 Aerosol Primer promotes adhesion and enhances hiding and is especially recommended for bare wood and metal. Apply an undercoat of primer on darker surfaces to maximize the finish coat color.

**APPLICATION**

Shake can vigorously for one minute after the mixing ball begins to rattle. If mixing ball fails to rattle DO NOT STRIKE CAN. Contact Rust-Oleum. Shake often during use. Hold can upright 10-16" from surface and spray in a steady back-and-forth motion, slightly overlapping each stroke. Keep the can the same distance from the surface. Keep the can in motion while spraying. Apply two or more light coats a few minutes apart to avoid drips and runs. **Do not use near open flame.**

**DRY & RECOAT**

Dry and recoat times are based on 70°F and 50% relative humidity. Allow more time at cooler temperatures. Dries to touch in 15 minutes, dries to handle in 1-2 hours and is fully dry in 24 hours. Recoat within 1 hour or after 24 hours.

**CLEAN-UP**

When finished spraying, clear spray by turning can upside down and depressing spray button for 3-5 seconds (some paint will be sprayed out, so be careful to not inadvertently spray yourself or other objects). Clean-up wet paint with xylene or mineral spirits. Properly discard empty container. Do not burn or place in home trash compactor.

**CLOGGING**

If the valve clogs, twist and pull off spray tip and rinse in a solvent such as mineral spirits. Do not insert any object into can valve opening.

**TECHNICAL DATA**

**AMERICAN ACCENTS TERRA COTTA SPRAY**

**PHYSICAL PROPERTIES**

		TERRA COTTA SPRAY
<b>Resin Type</b>		Modified Alkyd
<b>Pigment Type</b>		Red Iron Oxide, Yellow Iron Oxide, Titanium Dioxide
<b>MIR</b>		Maximum value of 0.80
<b>Fill Weight</b>		12 ounces
<b>Solvents</b>		Acetone, Toluene, Xylene
<b>Recommended Dry Film Thickness (DFT) per Coat</b>		1.0-2.0 mils (25-50µ)
<b>Practical Coverage at Recommended DFT (assumes 15% material loss)</b>		10-12 sq.ft./can (0.9-1.09 m <sup>2</sup> /can)
<b>Dry Times at 70-80°F (21-27°C) and 50% Relative Humidity</b>	<b>Touch</b>	15 minutes
	<b>Handle</b>	30 minutes
	<b>Recoat</b>	Within 1 hour or after 24 hours
<b>Shelf Life</b>		5 years
<b>Flash Point</b>		-156°F (-104°C)
<b>Safety Information</b>		For additional information, see SDS
