ADHESIVE REMOVER

Directions for Use:

1. Always test on inconspicuous area first.
2. Saturate the adhesive by applying a liberal amount directly onto the finish.
3. Allow time for the remover to work. It will loosen most finishes in 15-30 minutes.
4. Test scrape a small area to see if finish is ready for removal.
5. Scrape away the softened adhesive with a wide putty knife or scraper.
6. Multiple coats or stubborn finishes may require repeat applications.
7. For final clean-up, apply onto the surface and wipe clean.
8. Before installing new floor covering, allow surface to dry for 1 hour or more.
